Appendix 1

Supplementary Infrastructure Assessment and Settlement Capacity Audit

Introduction

This is the Supplementary Infrastructural Assessment (IA) and Settlement Capacity Audit (SCA) of sites in County Sligo that have been subject to proposed amendments to zoning (PAZ).

Please refer to **Appendix A, Section A.1** of the **Draft Sligo County Development Plan 2024-2030 (CDP)**, for a full description of the criteria used in carrying out the IA and SCA of selected sites.

This Appendix contains a total of 16 Infrastructure Assessment tables. These tables contain the IA for sites which were either not included in the initial IA (Appendix A of the Draft Plan) or where there is new information available which alters the initial IA conclusion. In these tables:

- A green circle indicates the availability of the specified infrastructure to facilitate development on the respective site.
- An amber circle indicates that services are not yet available or further investment in infrastructure is required, and this investment is likely to be provided during the lifetime of the Plan.
- A red circle indicates that one or more services are inadequate or unavailable, and unlikely to be provided during the lifetime of the Plan.

Note:

- **PAZ-20 (IA Site 13)**– This land was previously assessed as *not fully serviced*. However, it is now accepted that the required services were put in place during the development of the lands to north-east. The lands are therefore deemed to be fully serviced / Tier 1.
- **PAZ-22 (IA Site 12)** - This land was previously assessed as *not fully serviced*. New information has since come to light that the land is served by a public footpath and it can therefore be deemed fully serviced.
- **PAZ-23 (IA Site 16)** - This land was previously assessed as *not fully serviced*. New information has since come to light regarding the extent of the public sewer which extends as far as the site. The lands can therefore be deemed fully serviced.

Note:

PAZ-26 (Site 13) – This land was previously assessed as *not fully serviced*. As part of implementing the development permitted under planning permission PL08/1008, a pumping station was installed on the lands, to connect the development to the existing sewer along the access road. The lands are therefore deemed to be fully serviced / Tier 1 lands.

PAZ-39	●	●	●	●	●	T1

Note:

PAZ-38 (Site 23) – The site was identified as “not fully serviced” in the initial IA prepared as part of the Draft CDP. The site did not have satisfactory access to the adjacent public road, due to traffic management measures carried out at the junction of N-17 with R-294 (installation of a traffic light system and filter lanes).

It has now been established that the landowner also owns the adjacent dwelling to the north-west, which has an access onto the public road. This existing access can be used to serve the site subject to PAZ-38. The site is therefore considered fully serviced.

Corrections to the text of the Draft County Development Plan 2024-2030

Correction 1

In Section **28.1.4 Seveso sites** (Chapter 28 Economic development, Volume 3 General Policies), **correct** the information contained in the second paragraph as follows:

This Development Plan does not designate sites or zones for uses that might be classified as Seveso establishments ~~and no such establishments exist at present.~~ However, such developments may occur during the Plan's life. In 2024, the Health and Safety Authority (HAS) published an updated list of Notified Lower Tier Establishments, which mentions Lough Gill Distillery (Hazelwood. Co. Sligo).

Correction 2

In Section 12.1.8 Built Heritage – Protected Structures (Chapter 12 Ballymote, Volume 2 Urban Development) remove the item ~~RPS no.53 – House/Shop (doddys).~~
